

German transmission system operators publish biogas cost redistribution amount for 2022

- **Biogas Cost Redistribution amount for 2022: EUR 0,5740 per kilowatt hour per hour per year**
- **Costs distributed to network fees payable by the market-area-wide transmission system operators in Germany**

Berlin, 23 September 2021. For the last time, the operators of the two German market areas NCG and GASPOOL have determined the biogas cost redistribution amount applicable for 2022, which amounts to EUR 0,5740 per kilowatt hour per hour per year (EUR / kWh / h / a). Costs for network connection and biogas feed-in are equally distributed among the fees for exit points to directly connected end consumers and downstream grid operators of the transmission system operators in Germany.

In future, the biogas levy for the following year will be determined by the operator of the pan-German market area Trading Hub Europe (THE), which is to start on 1 October 2021.

About FNB Gas:

The Berlin-based association Vereinigung der Fernleitungsnetzbetreiber Gas e.V. (FNB Gas) was founded in 2012 by the German gas transmission system operators (TSOs), i.e. the network companies operating the major supra-regional and cross-border gas transportation pipelines. One key focus of the association's activities is the Gas Network Development Plan, which has been drawn up annually by the TSOs since 2012. The association also acts as a central point of contact for policymakers, the media and the general public on behalf of its members.

The members of the association are: bayernets GmbH, Ferngas Netzgesellschaft mbH, Fluxys TENP GmbH, GASCADE Gastransport GmbH, Gastransport Nord GmbH, Gasunie Deutschland Transport Services GmbH, GRTgaz Deutschland GmbH, Nowega GmbH, ONTRAS Gastransport GmbH, Open Grid Europe GmbH, terranets bw GmbH and Thyssengas GmbH. Between them they operate a pipeline network totalling some 40,000 kilometres in length.
