

Price List

valid from: 01.01.2026

dated: 12.06.2024

**For your information only! The German
version of the price list is legally binding!**

Note regarding yearly price:

The network fees for firm freely-allocable capacities with a term of one gas year (reference price) are 7.06 €/((kWh/h)/a or 0.01934247 €/((kWh/h)/d in the market area Trading Hub Europe (THE), valid from 1 January 2026.

Guidelines for the conversion of yearly prices into prices for periods of less than a year:

According to the decisions “MARGIT 2026” (BK9-24/612) no. 2) and “BEATE 2.0” (BK9-18/608) no. 2a) a multiplier applies to the shipping fee. The multiplier of a within-day product is 2.0, the multiplier of a daily product is 1.4, the multiplier of a monthly product is 1.25 and the multiplier of a quarterly product is 1.1. All shipping fees in this price list are without multipliers. For this reason, for all booking periods of less than a year the shipping fee has to be multiplied with the relevant multiplier.

The multiplier does not apply to the metering fee, the biogas levy and the quality conversion charge.

Biogas levy and Market area conversion charge 2026

The Biogas charge and Market area conversion charge for the year 2026 will be published compliant with section 7 (6) or section 10 (6) of the Cooperation Agreement between the Operators of Gas Supply Networks in Germany no later than 1 October 2025.

Tariff for DZK (Benchmarking)

From 01 January 2026, no benchmarking product can be offered according to “REGENT 2026” (BK9-23/610).
